Network colours and Neighbourhood names

The individual names and colours have been applied to the new BlueCare Networks and Neighbourhoods for the purpose of internal identification and differentiation. These names, eg. Gold Coast Grevillea, are not designed to be used for any external purposes.

The aim is to provide a unique identifier for our staff in connection to their Neighbourhood and Network. This will help provide our people within a Neighbourhood a sense of belonging and connection to their team, as a unique team within their larger Network, but also within Community Services across Queensland.
